

Rhenzo Legaspi

Sapang Bayambang, Pangasinan Philippines, 2423

+639667524399

rhenzolegaspikamiya@gmail.com

Technical Skills

Programming: PHP, Javascript, JQuery, MySQL, Java, Bootstrap, HTML, CSS, ReactJS, NodeJS, WindiCSS, GIT, GitHub.

Hardware Proficiency: Computer Assembly and Installation, Configuration, Troubleshoot, Basic Repair, Set-up and Maintenance, Testing, Imaging and Cloning, Windows and Drivers Update, Computer Upgrades.

Software Proficiency: Microsoft Office (MS Word, Excel, and PowerPoint), Google Suites.

Personal Skills and Interest

Strong analytical and problem-solving skills; Excellent communication and problem-solving skills; Adaptability and Learning Agility; Willingness to learn; Attention to Detail; Ability to work independently and as part a team.

Interests: Latest technologies, Gaming, Coding and Programming Projects.

Education

Collegiate Level

PANGASINAN STATE UNIVERSITY

Bayambang Campus Bayambang, Pangasinan

Bachelor of Science in Information Technology

2016 – 2020

Secondary Level

BAYAMBANG NATIONAL HIGH SCHOOL

Magsaysay St., Bayambang Pangasinan

High School Diploma, March 2015

Professional Experience

Jr. System Developer

PESO Resources Development Corporation,

January 2023 – Present

- Writing, testing, and debugging code for company's new website using ReactJS, NodeJS, HTML, CSS and MySQL.
- Collaborate with business analysts to gather and understand software requirements and specifications.
- Identify and resolve software defects through debugging, testing, and problem-solving techniques.
- Work collaboratively with the development team and other cross-functional teams to achieve project goals and deliver high-quality software solutions.
- Stay up-to-date with emerging technologies and industry trends. Continuously improve technical skills and knowledge of software development methodologies.

IT Support

Zenshin System Corporation,

June 2021 – January 2023

- *Support*: Responding to inquiries and troubleshooting technical issues related to hardware, software, applications, and network problems.
- *Software Installation and Configuration*: Assisting users with the installation, configuration, and setup of software applications on their computers or devices.
- *Hardware Setup and Maintenance*: Helping with the installation, configuration, and troubleshooting of computer hardware, such as desktops and laptops.
- *Hardware and Software Upgrades*: Assisting in upgrading computer hardware and software to ensure systems are up to date and running smoothly.
- *Continuous Learning*: Staying up-to-date with the latest technological advancements and trends in the IT industry.
- *Software Testing*: Verifying software applications to ensure they function as intended and meet the requirements specified. This includes unit testing, integration testing, system testing, user acceptance testing (UAT), and more.
- *Hardware Testing*: Verifying the functionality and reliability of computer hardware components, such as CPUs, memory modules, hard drives, etc.
- *Compatibility Testing*: Testing software applications on different platforms, operating systems, or configurations to ensure they work across various environments.
- *Performance Testing*: Assessing the speed, responsiveness, and stability of software applications under different conditions, such as heavy load or stress.
- *System Imaging*: Creating a complete image of a computer's operating system and configurations, which can be deployed to multiple computers of the same model or specifications.
- *Data Imaging*: Creating a copy of specific data or partitions, such as user profiles or critical files, to ensure data recovery in case of data corruption or hardware failures.
- *Disk Cloning*: Creating a cloned copy of an entire hard disk or specific partitions, which can be used to set up multiple systems quickly and uniformly.
- *System Cloning*: Creating a cloned copy of an entire system image to deploy it on other computers with identical hardware.

Trainings and Seminars Attended

SEMINARS & WEBINARS:

<u>Game Development Day</u>	- 2018
(Game Programming, Game Development Strategies, Game Components and Design, Unity Essentials)	
<u>ITSO Seminar: Robotics & Machine Learning</u>	- 2018
<u>ITSO Seminar: Web Development</u>	- 2019

Research Papers and Projects Handled

Estoryapp Mobile Application
Reservation System Website
PRDC Business Management System
